

Michael I. McBurney, Ph.D., F.A.C.N.

***Head of Scientific Affairs
DSM Nutritional Products, Inc.***

Dr. Michael McBurney is Head of Scientific Affairs at DSM Nutritional Products, Inc, the world's leading supplier of vitamins and carotenoids. He is an experienced leader and manager of nutrition and food science teams in academic and industry (consumer packaged goods and ingredient manufacturing) environments. Dr. McBurney is an Adjunct Professor in the Friedman School of Nutrition Science & Policy at Tufts University and has held academic appointments at the University of Toronto, University of Alberta, Michigan State University and Texas A&M University. He was honored with a McCalla Research Professorship at the University of Alberta (1997) and was a Rank Prize Invitational Speaker (Nutrition and Gut Cell Function, 1999). While at the Kellogg Company, his responsibilities included the development of nutrition science and communications activities, nutrition labeling oversight in the USA, and evaluation of bioactive food ingredients. Dr. McBurney was founding Department Head of the Department of Nutrition and Food Science at Texas A&M University where he directed the administration of teaching, research and extension activities. During his tenure at Texas A&M, he established departmental operating processes, seven faculty members were hired, enrolment increased 34%, and \$1.8 MM in renovations were completed.

Dr. McBurney is an active volunteer with leadership experience in the American Society for Nutrition (ASN), Institute of Food Technologists (IFT), International Food Information Council (IFIC), International Life Science Institute (ILSI), Canadian Society for Nutrition Science (CSNS), and Council for Responsible Nutrition (CRN). He served as a founding Advisory Board member of the Institute of Nutrition, Metabolism and Diabetes, one of 13 institutes within the Canadian Institutes of Health Research. He was a member of the Institute of Medicine Food Forum and has been an invited reviewer for the Institute of Medicine and Health and Welfare Canada. Dr. McBurney has served on the editorial boards of several journals and is the Chair of the ASN Publications Management Committee responsible for the Journal of Nutrition and American Journal of Clinical Nutrition. Dr. McBurney was the keynote invitational speaker at the 4th International Dietary Fibre Conference in Vienna, Austria (Jul 1-4, 2009). He is a trained mediator according to standards established by the State Bar of Texas.

Dr. Michael McBurney received his B.S. in Biology (Ecology) from Carleton University, M.S. and Ph.D. degrees in Nutrition from Cornell University. His post-doctoral training included an Organisation for Economic Cooperation and Development (OECD) post-doctoral award to study at the Swedish University of Agricultural Sciences, Rowett Research Institute, and Animal &

Grassland Research Institute. He continued his post-doctoral training at the University of Toronto and enjoyed a 1y sabbatical at the University of North Carolina-Chapel Hill. He has published almost 200 manuscripts, book chapters and abstracts on a wide range of subjects related to nutrition and health. Dr. McBurney has given 60 invited speeches in 12 countries.
