

## **Kathryn Camp, M.S., R.D., C.S.P.**

***Senior Scientific Policy Analyst  
Consultant to the Office of Dietary Supplements  
National Institutes of Health***

Kathryn Camp, M.S., R.D., C.S.P., is a consultant at the Office of Dietary Supplements (ODS) at the National Institutes of Health. She also is an assistant professor of pediatrics at the Uniformed Services University of the Health Sciences, where she lectures and mentors medical students and pediatric residents and fellows. She is a founding member and past president of Genetic Metabolic Dietitians International and is an appointed member of the American Dietetic Association's (ADA) Research Committee and Evidence-Based Practice Committee. In her current position with ODS, and along with the Office of Rare Diseases Research, Ms. Camp is coordinating an initiative to build an infrastructure for evidence-based research on the nutrition and dietary supplement interventions used to treat inborn errors of metabolism. Prior to this position, she worked in the Office of Biotechnology Activities staffing the Secretary's Advisory Committee on Genetics, Health, and Society. She is a certified specialist in pediatric nutrition with emphasis on the care of children with genetic and metabolic disorders.
